Can we help*

Lieutenant General Vernon A. Walters, USA
Deputy Director
Central Intelligence Agency

Dear General Walters

As a part of our overall screening to insure the most qualified USAF officers are assigned attache duties we have appointed a panel to interview each candidate and his wife. One aspect of the panel's composition is a former attache and his wife or other individual and wife who have served

Since a large number of your personnel have served around the world and appreciate the intricacies environment, we thought it would be very helpful if they and their wives could sit on our panel from time to time. We are interested in couples who have served wherever there so that we can tailor the composition of the panel to the country for which a candidate is being considered. We anticipate that the average couple will be called on no more than once or twice a year.

If members of your agency can support our program I would be pleased to explain it in more detail to whomever you may designate. My phone number is 664-6025 or Code 192, extension 46025.

It seems like ages since you returned from Paris. However I do keep in frequent contact with

Sincerely

George W. Gering, Jr.
GEORGE W. GERING, JR., Colonel USAF
Director, Attache Affairs

USAF review(s) completed.
